

# Lucian-Florin Cusmir, Software eE

29 Rowan Avenue, London, United Kingdom, 07493468483, cusmirlucian@gmail.com

## LINKS

[Personal Portfolio](#), [LinkedIn](#), [Github](#)

## PROFILE

Computer Science student skilled in Java, Python, C++, and JavaScript with strong Linux and server administration experience. Seeking a Summer 2026 Google internship to contribute to scalable, reliable systems and expand expertise in software and site reliability engineering.

## EDUCATION

Feb 2023 — Feb 2027	Bachelors in Computing, Arden University Expected graduation in 2027 Currently in level 5 student at Computing Highly interested in Programming	London
Sep 2018 — Jun 2022	Baccalaureat in Mathematics and Informatics, Technical College Infoel Graduated by passing exam in C++ and Mathematics. Certification in developing programs.	Bistrita

## SKILLS

Python	Experienced	Next.js	Experienced
FastAPI	Experienced	C	Skillful
Flask	Skillful	C++	Experienced
Matplotlib	Skillful	C#	Skillful
Java	Experienced	PHP	Experienced
Spring Boot	Skillful	PostgreSQL	Experienced
JavaFX	Experienced	Mysql	Experienced
JavaScript	Experienced	Docker	Experienced
React	Experienced	CI/CD	Experienced

## PROJECTS

Apr 2025 — Present	<b>AI API endpoint</b> <a href="https://github.com/lucian-xinitrc/GethonisAIApi">https://github.com/lucian-xinitrc/GethonisAIApi</a> API endpoint that merges outputs from two language models, applies response optimization, and returns the most suitable result. <ul style="list-style-type: none"><li>Combines output from two AI models and returns the most suitable response.</li><li>Supports two AI engines with modular backend design</li><li>Containerised with Docker for consistent deployment</li><li>CI/CD integration with Github Actions for smooth dev workflow</li><li>Hosted on a scalable Hetzner Cloud Server</li><li>Secured, validated API requests and typed responses for reliability</li></ul>
Oct 2023 — Present	<b>Arch0Bot</b> <a href="https://github.com/lucian-xinitrc/Arch0Bot">https://github.com/lucian-xinitrc/Arch0Bot</a> AI-powered Discord chatbot, moderator, and remote content broadcaster always watching, always learning. <ul style="list-style-type: none"><li>Smart, AI-powered chatbot with personality</li><li>Admin commands: kick, ban, purge, filter, etc.</li><li>Secure POST endpoint for mobile content publishing</li><li>Self-hosted on a virtual server (no downtime)</li><li>Environment variable config (.env support)</li></ul>
